Do you approve of any of these doors at all? Should I limit the list or keep it as is to show to Mr. Coburn?

Send me the photos you took of the door the other day. Also send me the dimensions of the door itself (both width x height), and the dimensions of the rough opening (width and height).

It looks like we have a Left-Hand-Outswing door (references: <https://diy.stackexchange.com/questions/2784/how-do-you-determine-if-a-door-is-right-handed-rh-or-left-handed-lh> and <https://www.harborcitysupply.com/blog/how-to-door-handing-and-door-swing-guide/>).

Did you take measurements for the door itself as well? Grab one of the red Milwaukee tape measures from my workshop and we will bring it tonight to confirm measurements.

Yes, we did, we took the measurements together with the tape measure and have them written down. We just need to adjust the door frame.

Pack the red measurement tape for the meeting tonight.
