Dear Mr. Coburn,

I have listed here five links each with a door that I believe will work well with the door frame at the American Legion. If any interest you, please let me know by emailing me whichever link is listed here and I can get the ordering process started. I tried to stick to the measurements that would work for the door frame; Unfortunately, there aren't any doors that have the exact measurements we need. However, with a little tweaking and thinking. I believe this could work and I can get one step closer to making the room more office-like.

Sincerely,

Luke Killeffer
