Dear Mr. Coburn,

I would like to humbly thank you for everything you and the American Legion have done to support my Eagle Scout project. It has been an honor to work on this project which provides a benefit to the Legion and makes previously unusable space useful once more. It has been a long and hard journey to complete this project, but now that the work is completed and the paperwork is all finished, I am one step closer towards achieving my dream. The last obstacle I have to face is my Eagle Scout Board of Review, I will be making my stand there and show that I am worthy of the highest rank in Boy Scouts.

I am happy to inform you that the purpose of this letter is to let you know that I successfully raised more money to cover my project costs than I needed, and so I will be donating all the overage to the American Legion, which total \$206.90. I will be presenting this to you in cash the next time I see you at the American Legion, most likely at the next Troop meeting on Tuesday night. I hope this donation can be used to continue to improve the American Legion's building. Thank you again, and I hope to see you soon.

Yours in Scouting,

Luke Killeffer
Junior Assistant Scoutmaster for Troop 41 Abington
